Google Developer Certification

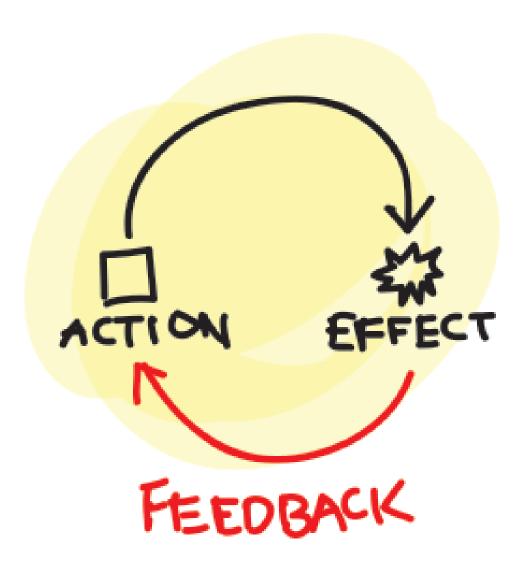

Associate Android Developer Exam

You can now prove your Android Development skills by earning an Associate Android Developer Certification. Earning this certification will be a definitive step on your path to a career as an Android Developer.

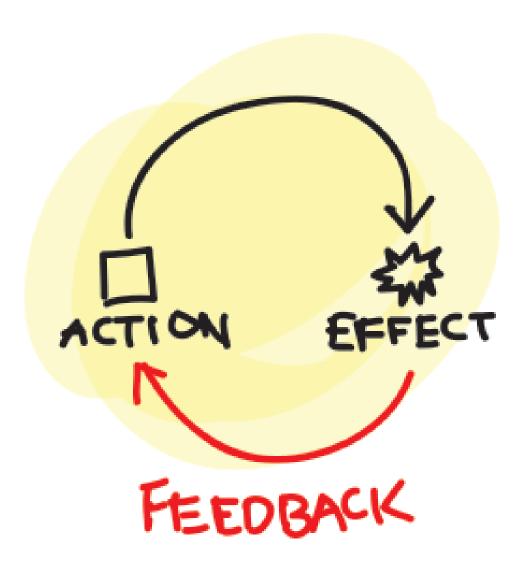

TAKE THE EXAM

产品设计怎么让*任何人*都可以学?

Google: Android 基础(中/英)

开发你的第一个 Android 应用, 迈出成为 Android 开发者的第一步

实战项目

创建一个单屏应用

设计并实现一款单屏应用,用来显示关于一家 虚拟小型商家的信息。可以想一想你喜爱的咖啡厅、当地餐厅或售卖漫画书或唱片的珍奇小店。

实战项目

计分器应用

在此实战项目中, 你的目标是创建一款计分器 应用, 使用户能够记录一场比赛中两支不同球 队的得分(比赛类型由你自行决定)。

实战项目

小测验应用

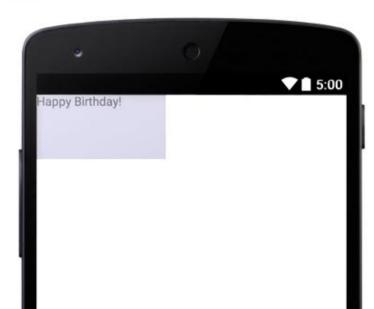

针对你感兴趣的话题,开发一个教育性质的小 测试应用,可以与亲朋好友及本课程的其他学 员分享。 使用 TextView

TEXTVIEW

```
<TextView
android:text="Happy Birthday!"
android:background="@android:color/darker_gray"
android:layout_width="150dp"
android:layout height="75dp" />
```

32秒长的视频

because it's not like normal words and sentences that we're used to every day.

0:16 / 0:32

可以跳到课题

简单考试 TEXT VIEW

```
<TextView
android:text="Happy Birthday!"
android:background="@android:color/darker_gray"
android:layout_width="150dp"
android:layout_height="75dp" />
```

Write your observations here:

happy birthday!

TEXTVIEW

```
<TextView
    android:text="Happy Birthday!"
    android:background="@android:color/darker_gray"
    android:layout_width="150dp"
    android:layout_height="75dp" />
```

Write your observations here:

- weird angle brackets
- Don't know what "android: text"
 means
- Says Happy Birthday, which appears on phone

Then we see something a background thing some color that's darker, gray.

Happy Birthday!

然后我们看到一个关于背景的信息 颜色是暗灰色

Code Review

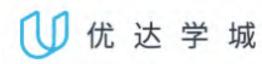

Here are all the comments that your Udacity Code Reviewer had about your code...

Line 96 in finalproject.py is Critical

hexagon.exitonclick()

Reviewer says: The last line of the draw function of the hexagon class throws an exception.

The exitonclick() method is called on the hexagon object instead of on turtle like the other methods. This method does not exist on the hexagon object so it will throw an exception and exit the program when called.
