← Firefox

Shell Script

```
echo 'setting up selenium environment'  
./xvfbsh
```

Shell Script

```
./run-firefox.sh
```

+ Add step

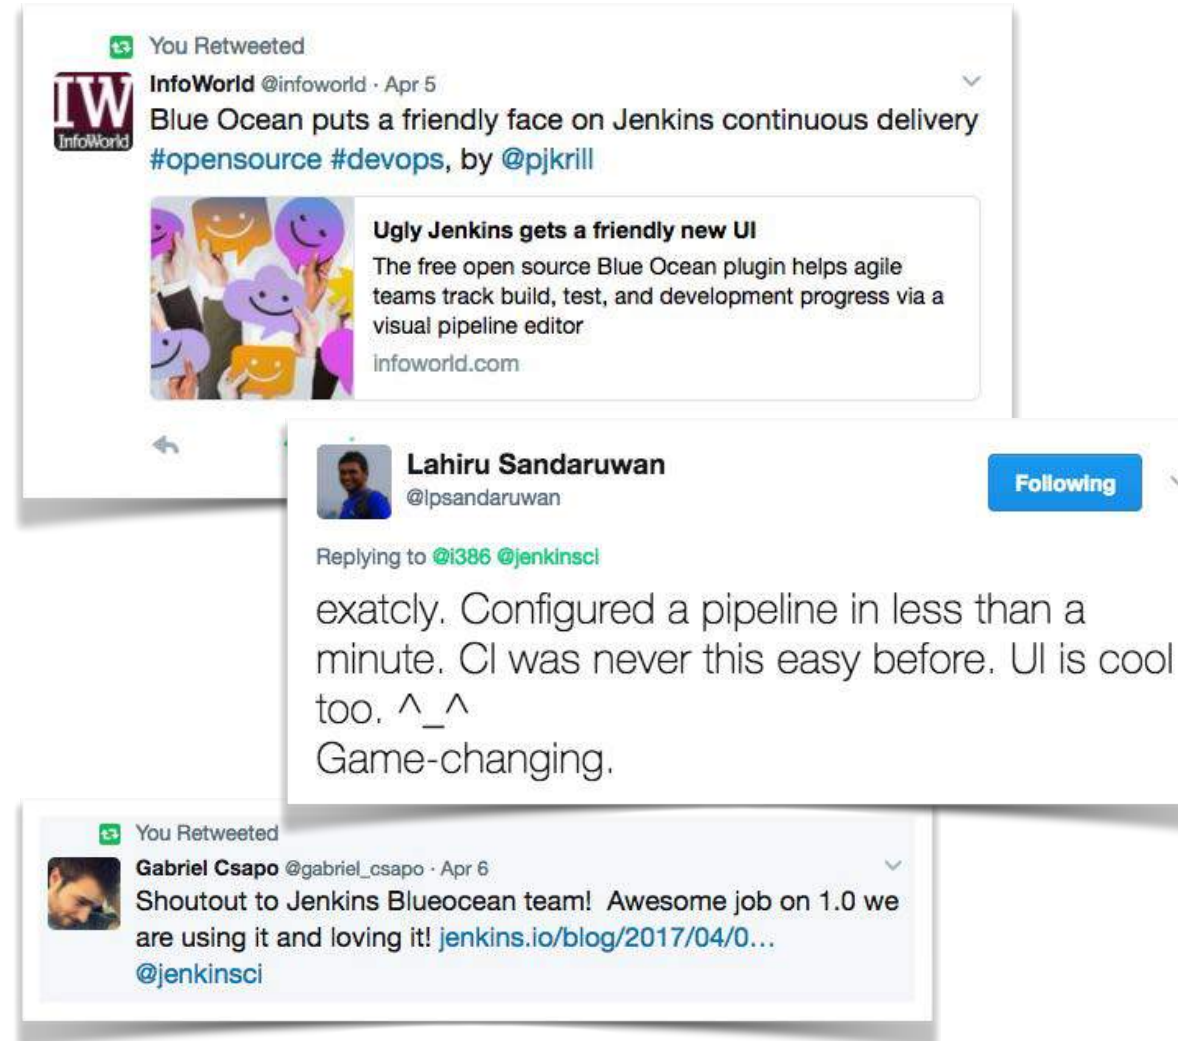

Change is in the air

“Funny to see that Jenkins is starting to address a lot of the issues that led us to create \$COMPETITION”

“As a long-time Jenkins user, ... Wow! About time! Kudos to the whole team!”

“I’ve actually moved from Travis to Jenkins, and never looked back”

Pipeline Jobs

625,000

30x

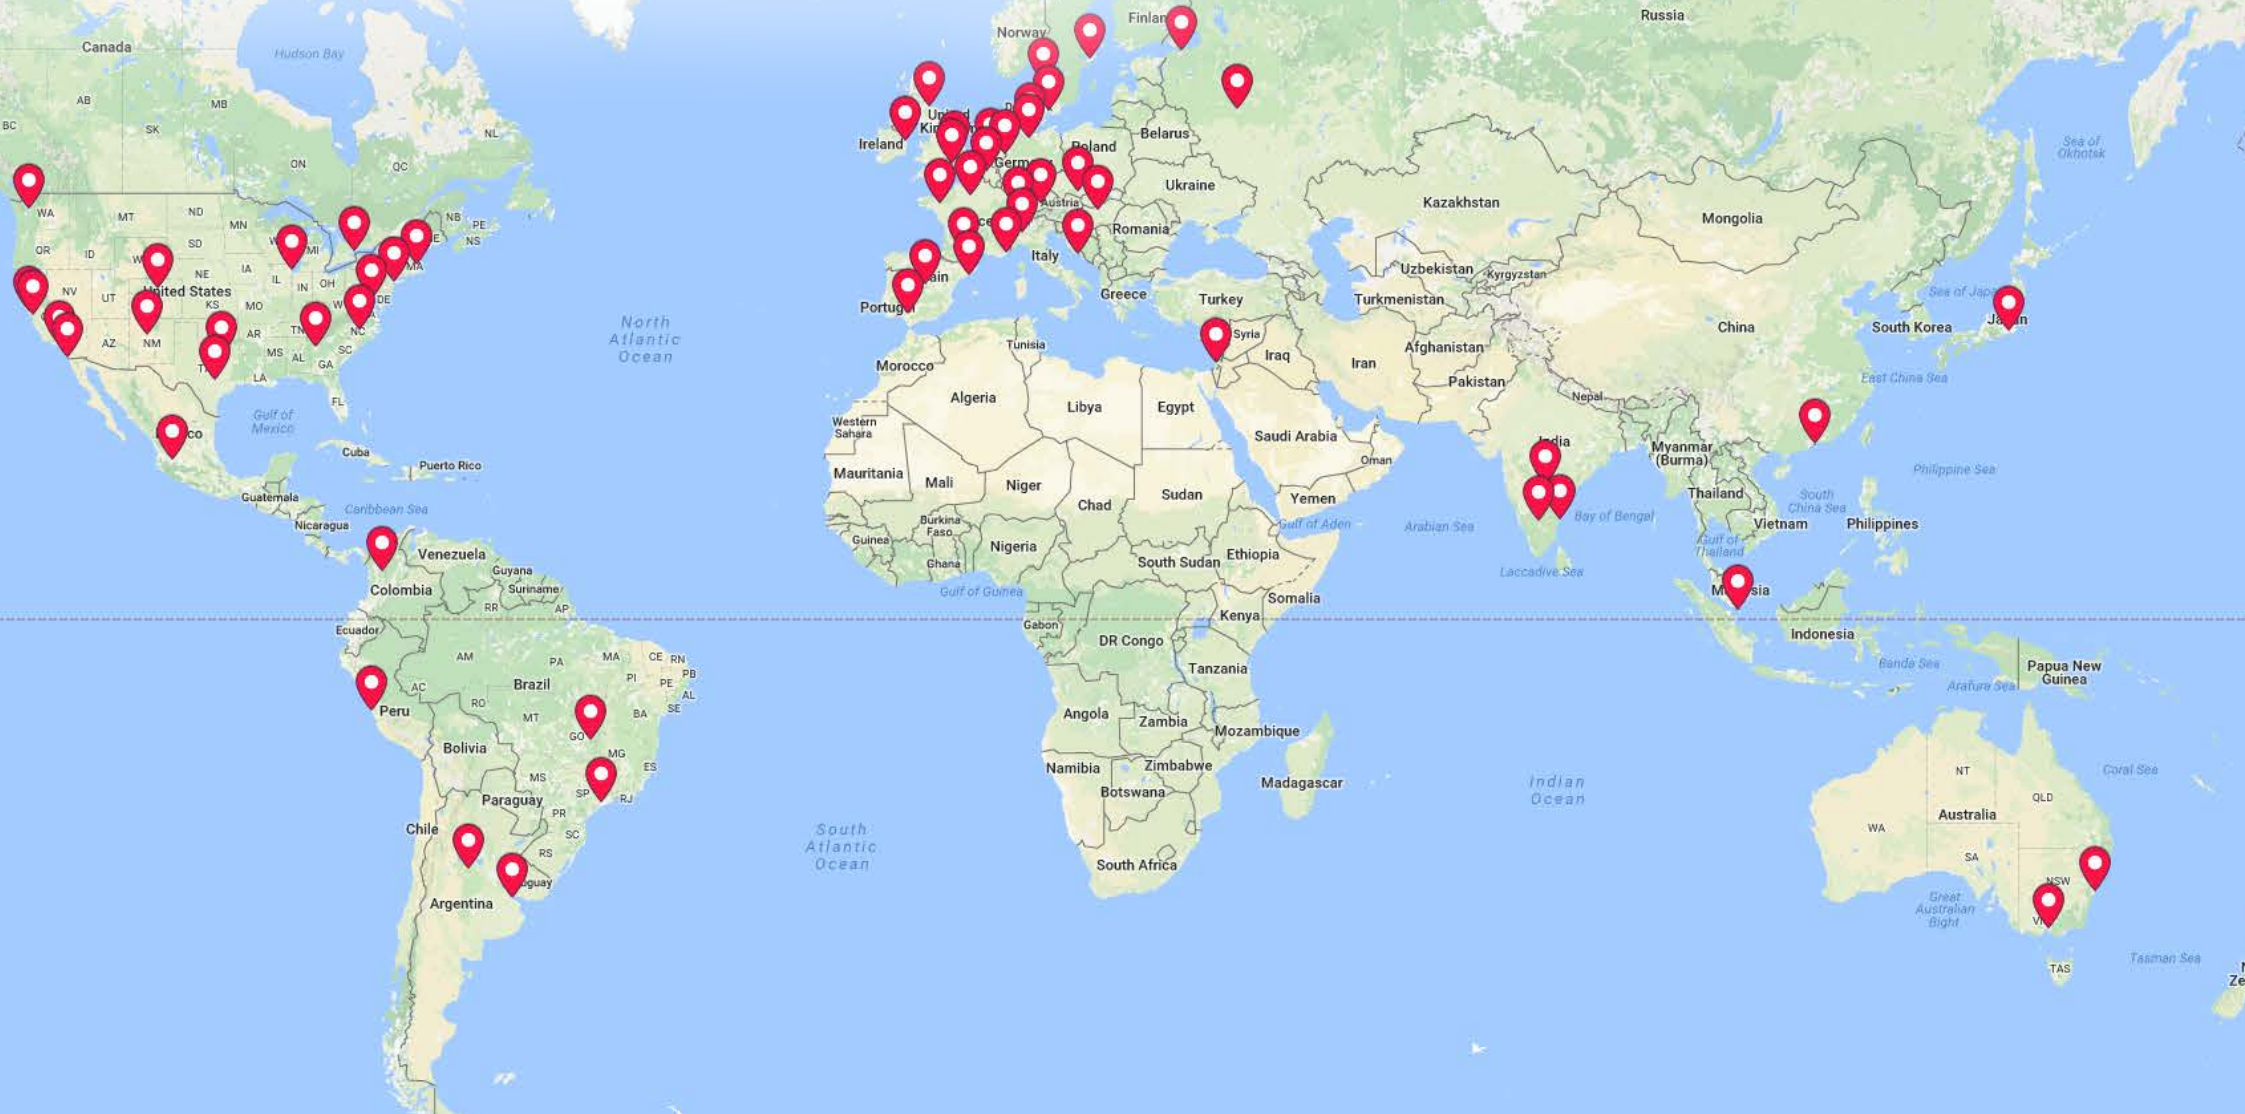

Document, educate, & evangelize

- Lots of great features, but surprising number of people do not know about them
 - People who haven't upgraded for 2 years
- We've been too busy building, neglecting to tell people

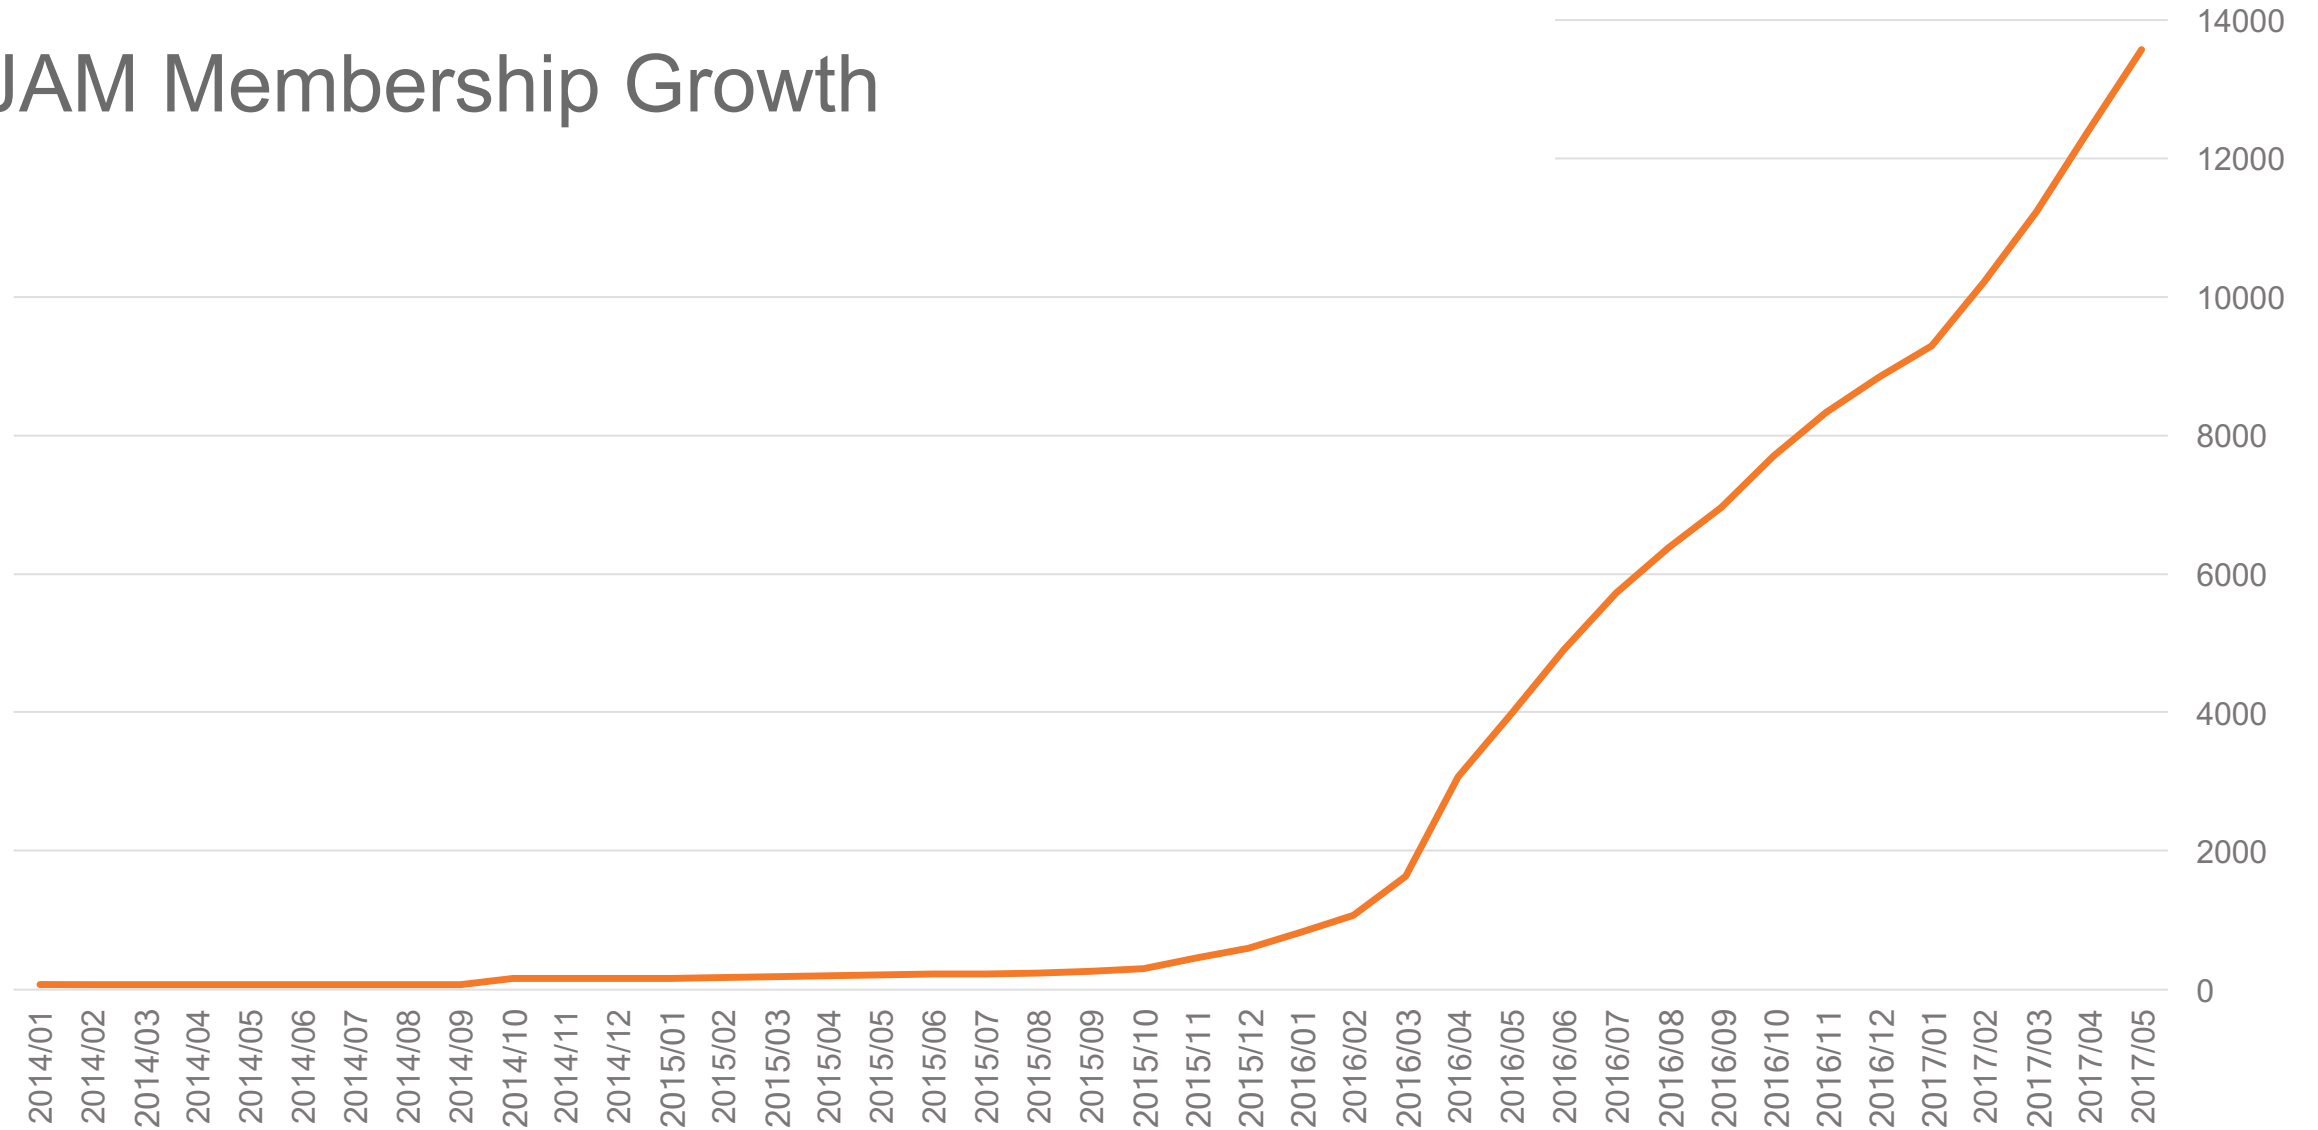

New focus on educating & arming users

- [New jenkins.io website](#)
- [Guided tours](#)
- [Handbook for administrators](#)
- [Pipeline getting started guide](#)
- [Pipeline references](#)

Jenkins Area Meetups

JAM Membership Growth

When you are not looking...

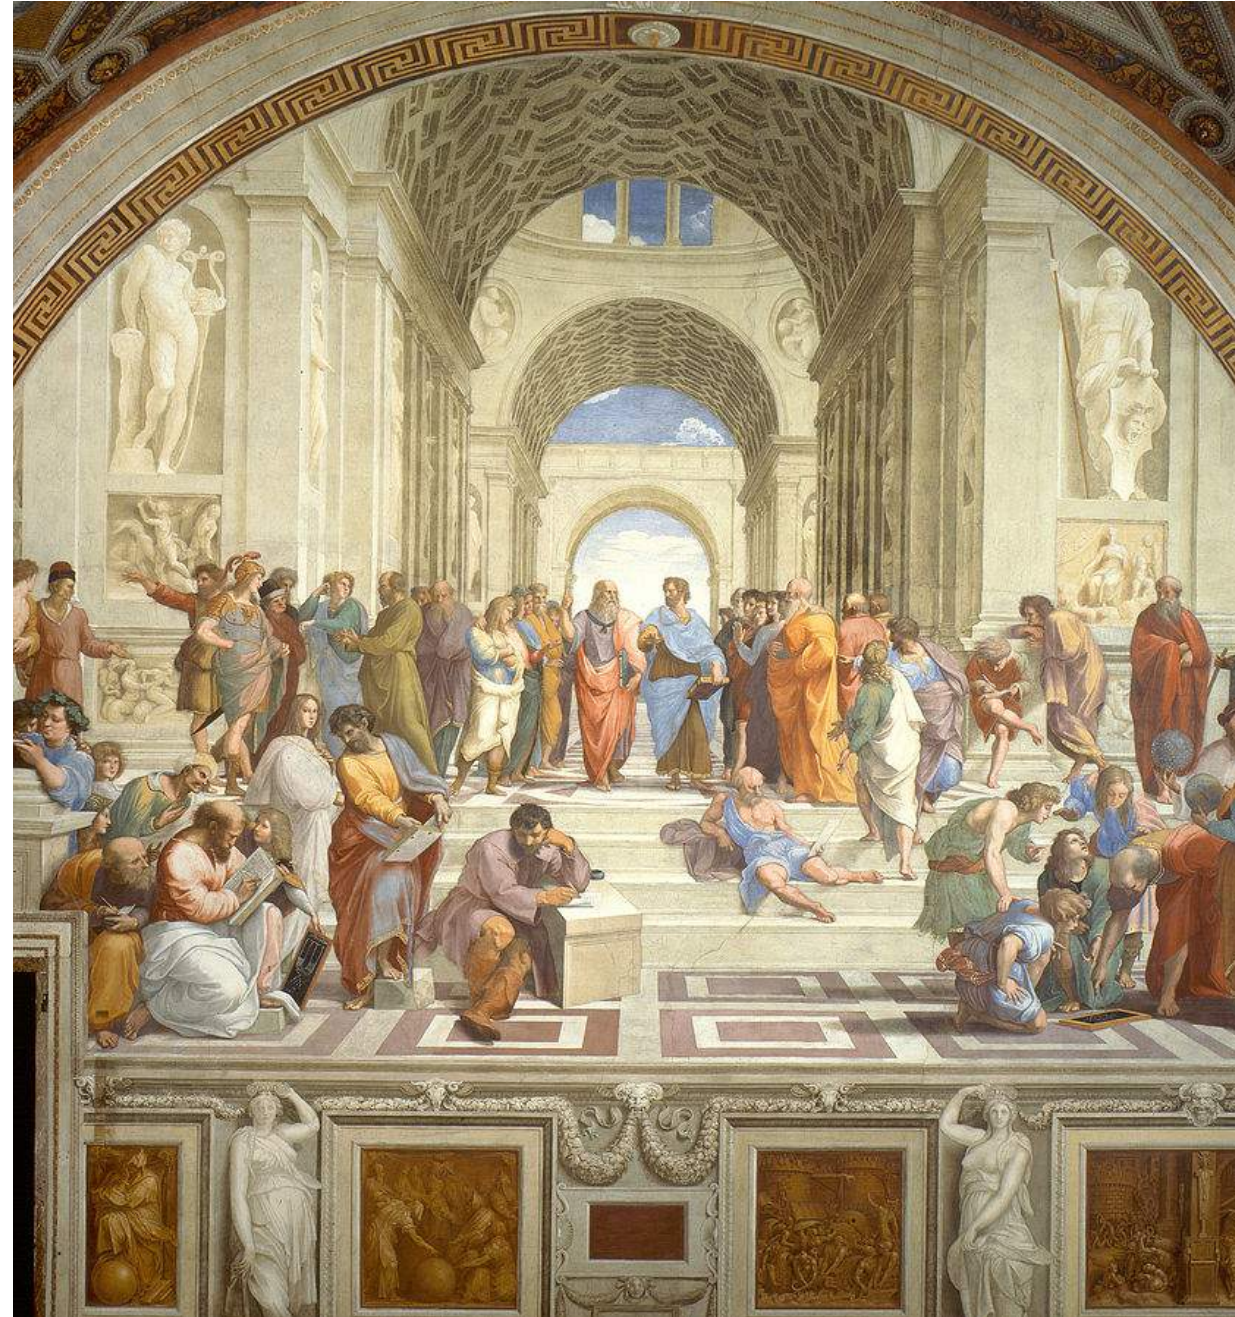

Not all the work is sexy but we take them just as seriously

- **Addressing security vulnerabilities**
 - Compromised build service = Compromised software built
 - 30% increase in the velocity since 2016
- **Community infra**
 - Kubernetes to avoid hodge-podge app deployments
- **Shift from people dependency to structure/process dependency**
 - Slow but steady, more to come...

Renaissance is ongoing

- Pipeline + Blue Ocean = Future
- This is not your father's Jenkins
- Use Jenkins like how it should be

THANK YOU!
