

“-∞ - 0 启发”

一个伟大的点子产生 (A great idea)

The very best startup ideas tend to have three things in common:

- 1.they're something the founders themselves want
- 2.that they themselves can build
- 3.and that few others realize are worth doing.

- Paul Graham, Founder of YC

新的机会往往是对不完美现状的质疑；以及活在未来，把缺失的那一部分打造出来

“0-1满足”

找到你的产品市场切合点 (product/market fit, PMF)

A photograph showing the silhouette of a building on the left side, with a series of colorful prayer flags (in shades of blue, yellow, green, and red) flying from a pole on the right side against a clear, light blue sky. The flags are arranged in a line, extending from the building towards the right.

Market fit means being in a good market with a product that can satisfy that market, and people

- Marc Andreessen

A-HA/Magical Moment

之所以叫A-HA Moment，是因为这个时刻用户真正的理解你的产品是什么，并且真正感受到了给他们带来的价值。

A-HA moments的例子

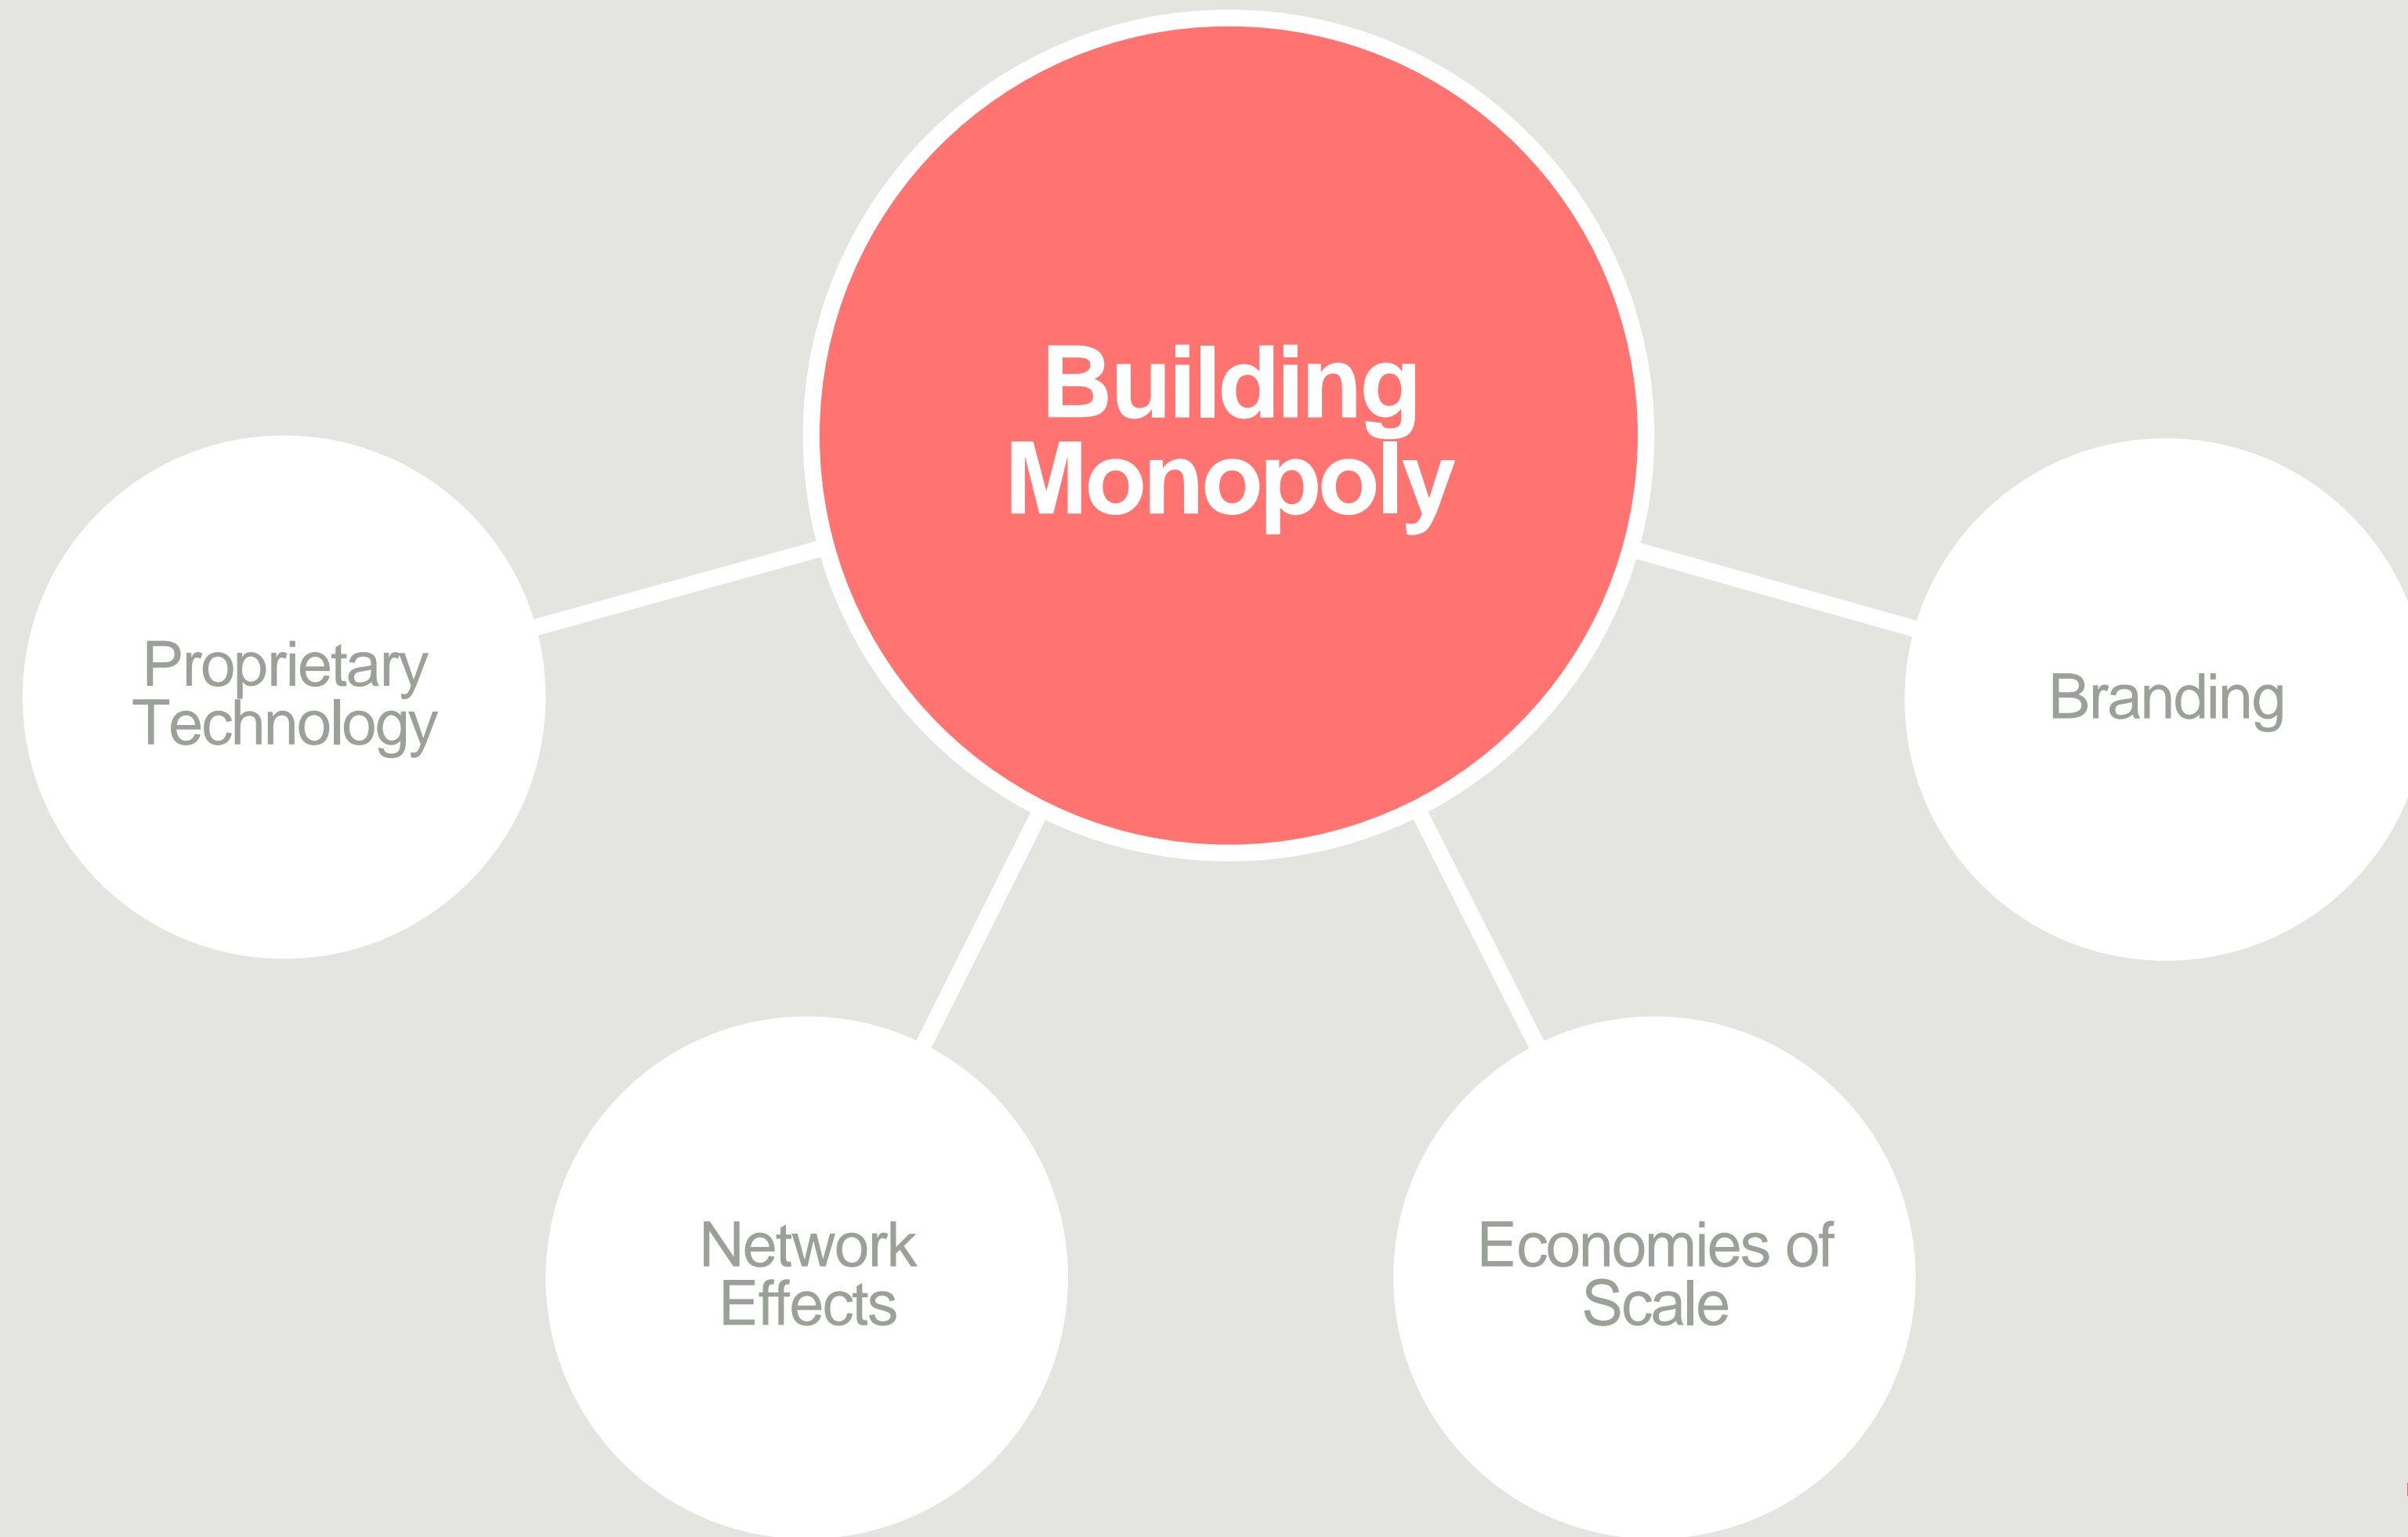

Josh Elman, Twitter's 的产品增长负责人，在分析了他们用户的使用数据以后，发现如果Twitter不能让用户去关注其它30个用户，这个用户很可能就不会再回来了。

Chamath Palihapitiya, Facebook的产品增长负责人，说的他们的A-HA时候是用户在10天内添加7个及以上的好友。

ChenLi Wang, Dropbox的增长负责人，发现决定用户是否会继续使用Dropbox的最佳指标是，这个用户上传了至少一个文件到Dropbox。

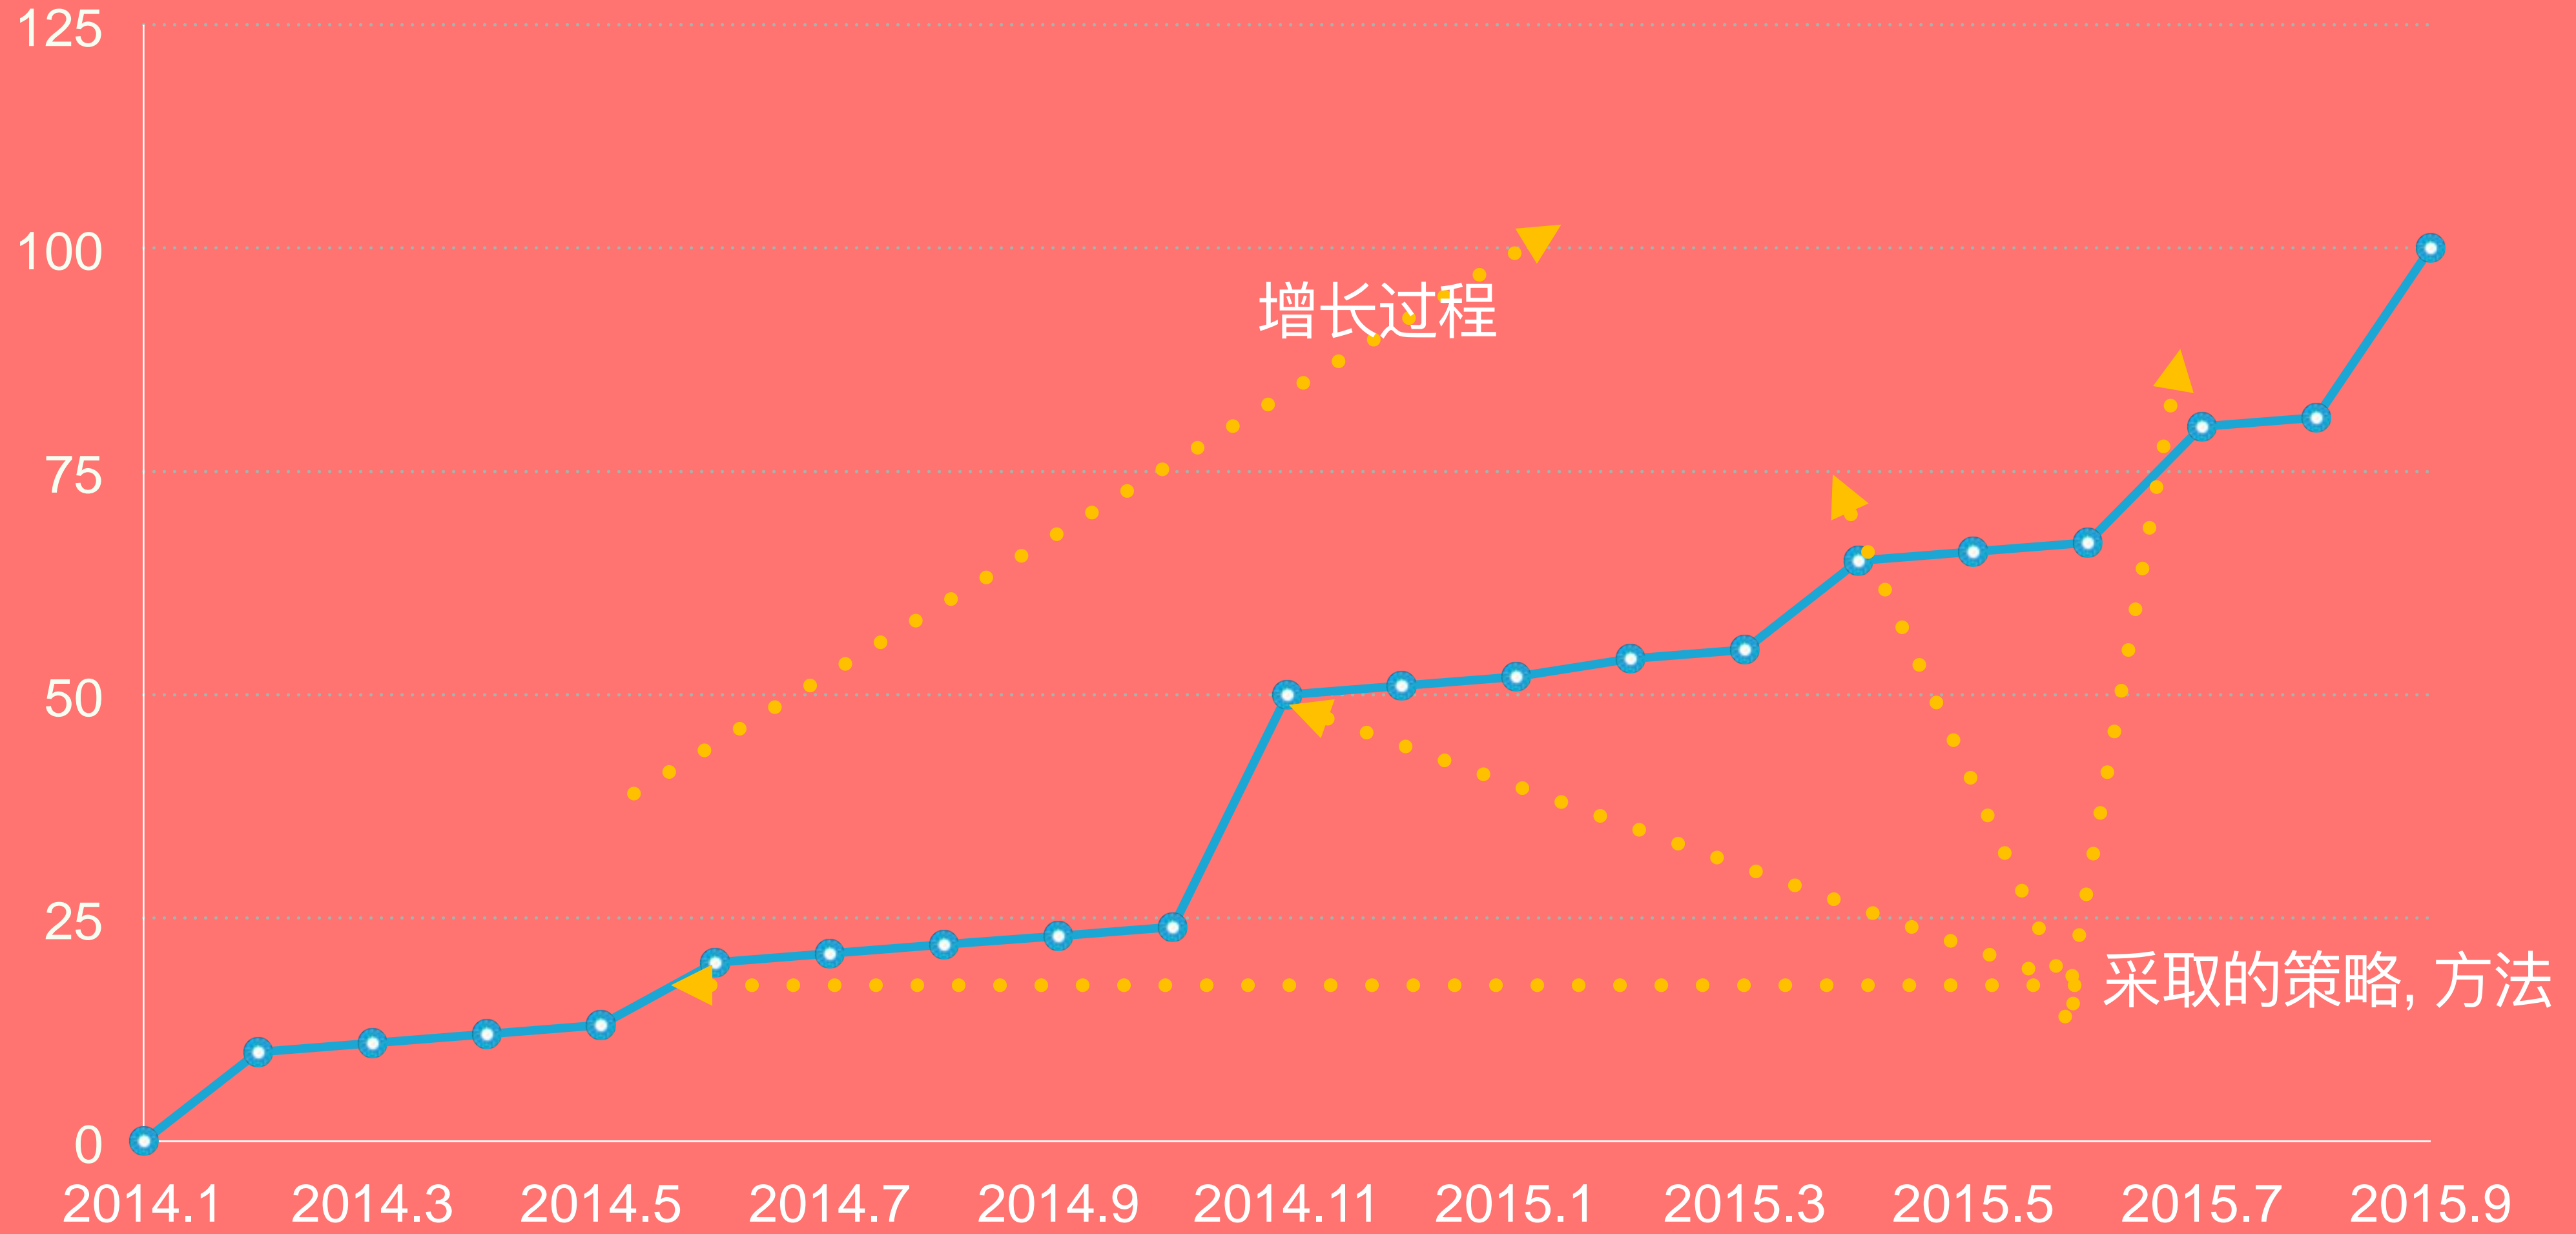

- Peter Thiel

“1-1e+10”增长”

产品的增长&不同阶段的增长引擎 (growth engine)

增长 VS 策略

“A good growth rate during YC is 5-7% a week. If you can hit 10% a week you’re doing exceptionally well. If you can only manage 1%, it’s a sign you haven’t yet figured out what you’re doing.”

- Paul Graham

An iceberg floating in a blue ocean. The tip of the iceberg is above the water line, while the much larger base is submerged. The image is used as a metaphor for marketing strategy, where the visible tip represents 'Viral Growth' and the submerged part represents various other marketing tactics.

考虑你的边界用户

“I’ve talked to so many companies, and they try to get incredibly complicated about what they’re doing, but it is just as simple as when you see the first picture of one of your friends on Facebook, you go ‘Oh my God, this is what this site is about!’

- Mark Zuckerberg

创新曲线 Rogers Innovation Curve

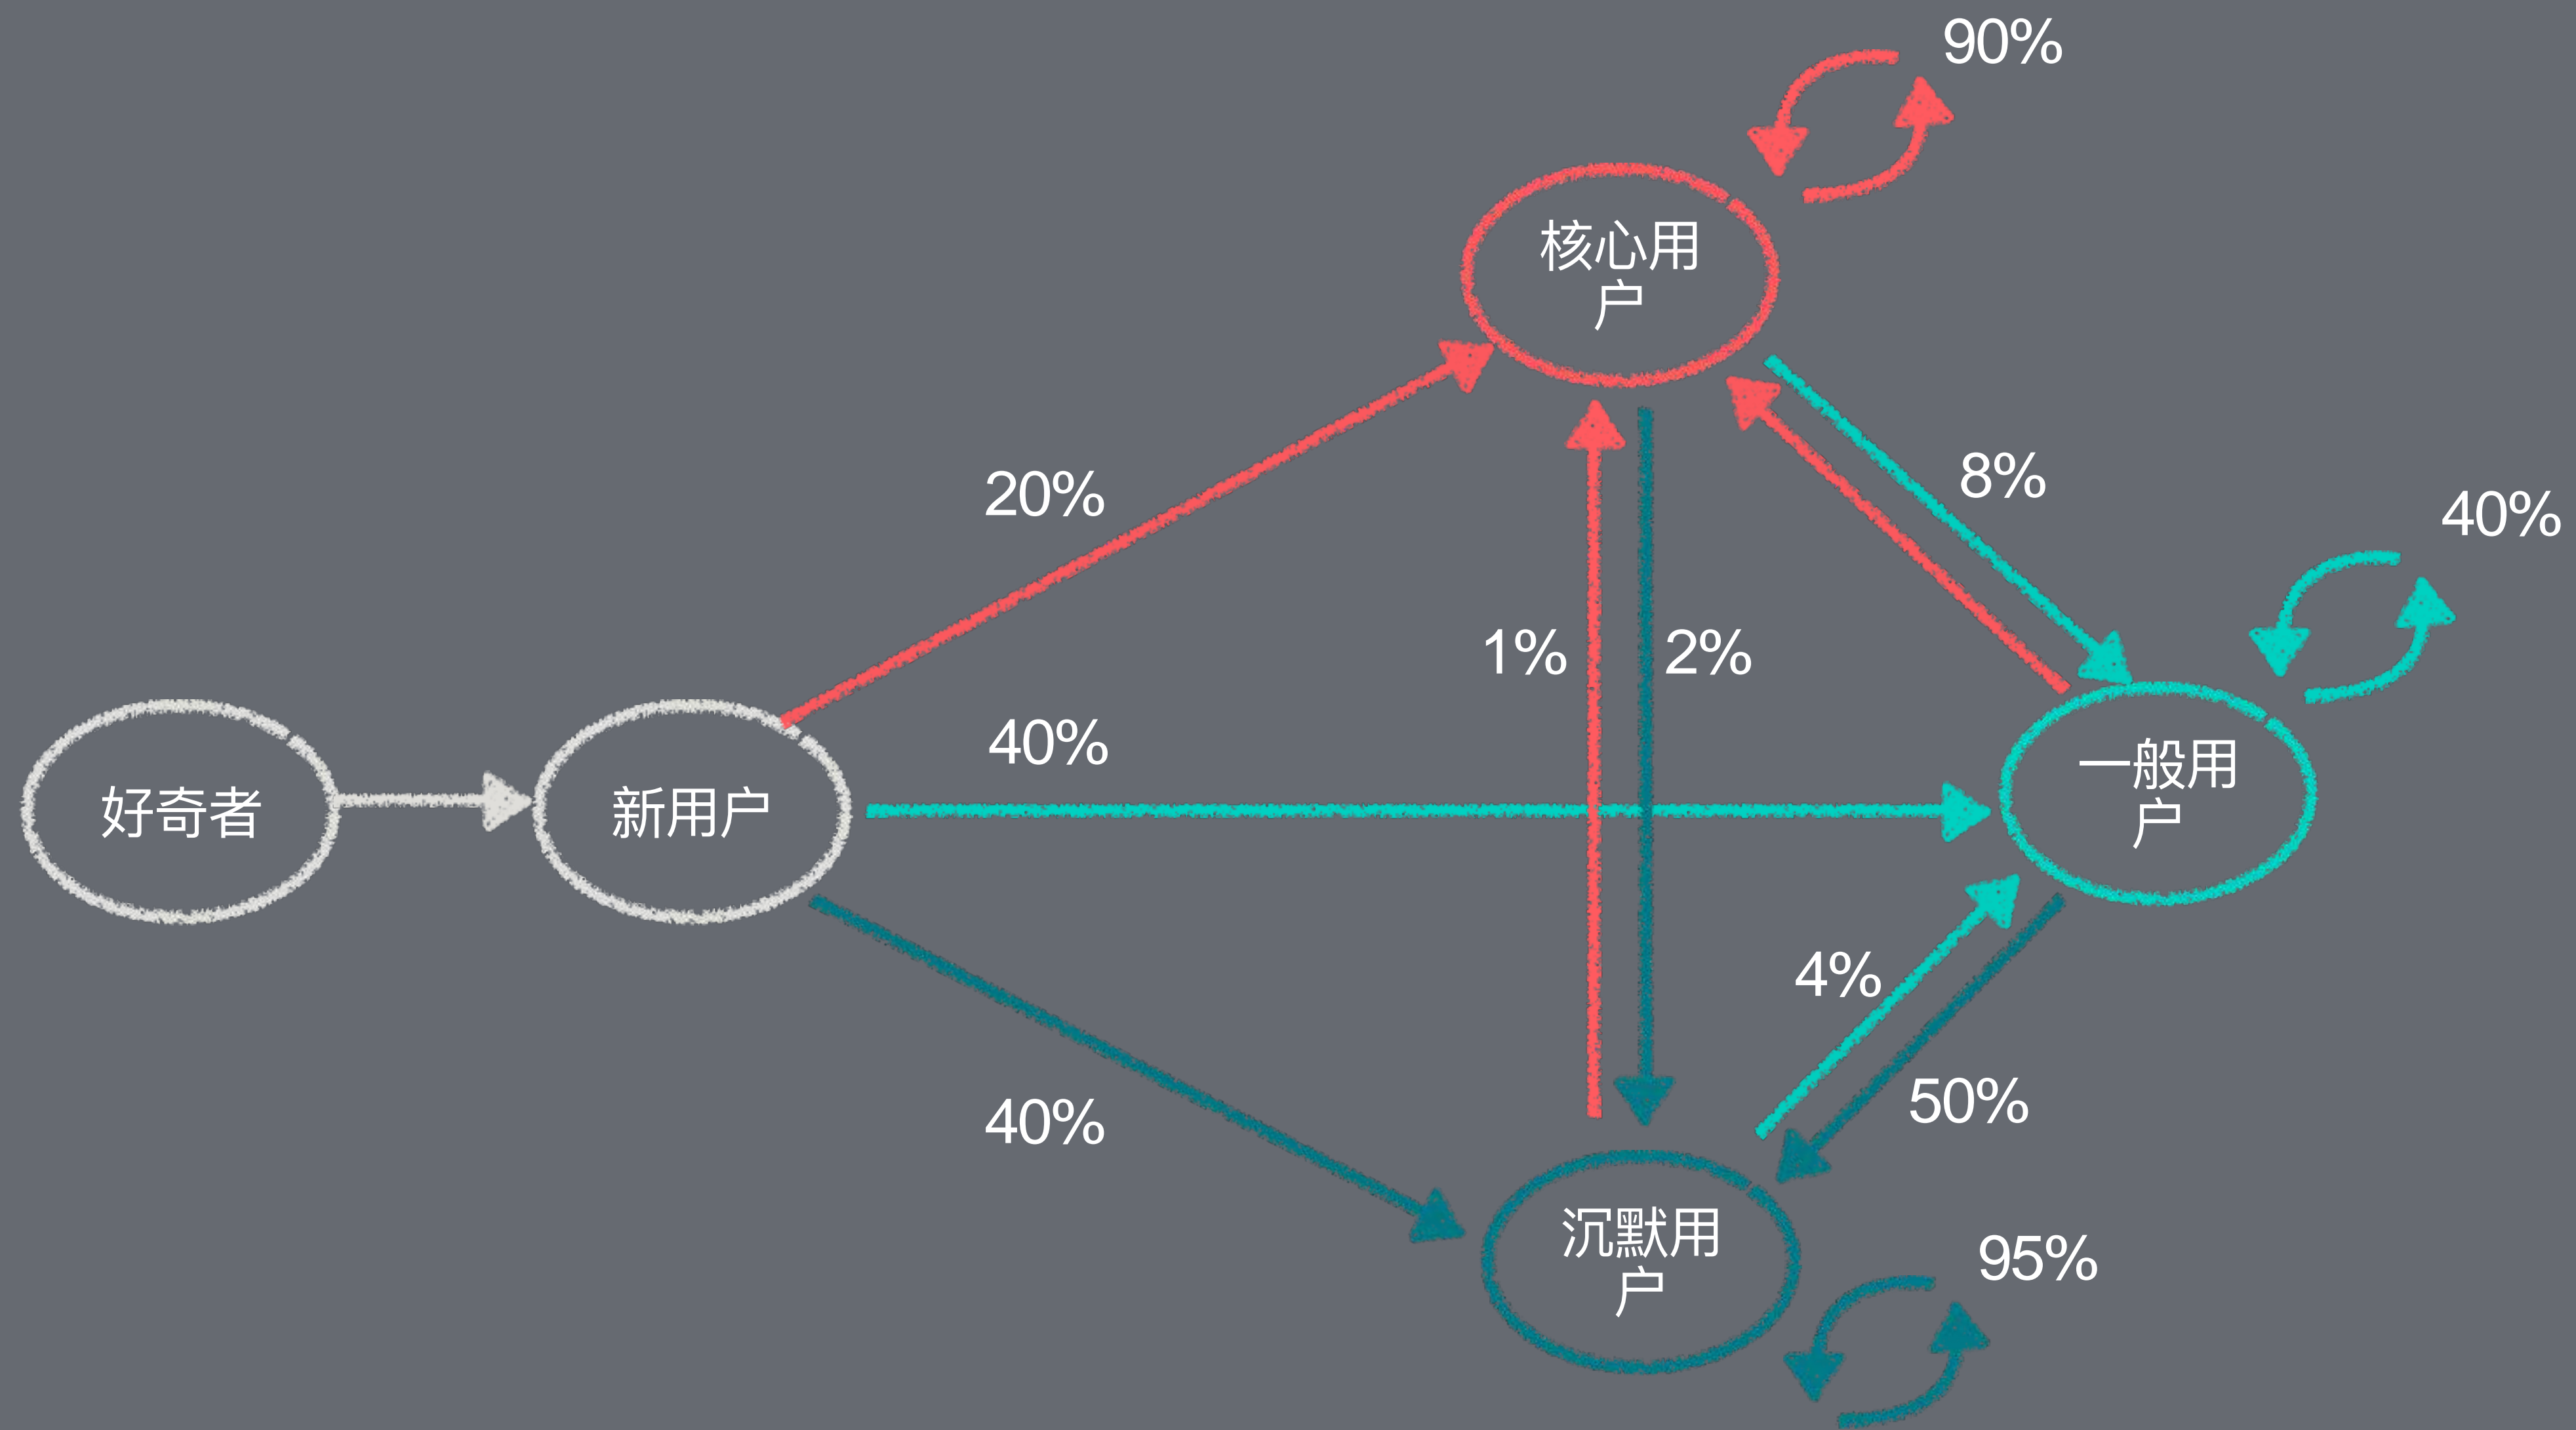

增长就是一个不断思考，假设与测试的过程

“ If you can run **more experiments** than the next guy, if you can be **hungry** for growth, if you can **fight and die** for every extra user and you stay up late at night to get those extra users, to run those experiments, to get the data, and do it **over and over and over** again, you will grow faster.”
