The 6th Quantitative Economics Conference (QEC 2016) will be held from May 29 to 31, 2016 in Nanjing, China. This Conference will cover issues on Quantitative Economics. It dedicates to creating a stage for exchanging the latest research results and sharing the advanced research methods.

QEC 2016 will be co-located with the following conferences:

The 2nd Agricultural Economics Conference (AEC 2016)

The 2nd Int'l Conference on Real Estate and Urban Economics (REUE 2016)

The 2nd Internet and Digital Economics Conference (IDECE 2016)

The 2nd Health Economics Conference (HEC 2016)

2016 Environmental and Resource Economics Conference (EREC 2016)

2016 Industrial and Technological Economics Conference (ITEC 2016)

2016 Business Economics Conference (BEC 2016)

QEC 2016 is devoted to the advancement of Quantitative Economics. Quantitative economics are the theories of "mathematical economists" based on the idea that there are constant relations in the sphere of human actions that can be quantified or measured, thus permitting the application of statistics and mathematical theories to economics. The scope of QEC 2016 covers both theoretical and practical areas of Quantitative Economics; Topical fields of interest include, but are not limited to the following: microeconomics, macroeconomics, finance, business, and econometrics.

QEC 2016 will be a valuable and important platform for inspiring international and interdisciplinary exchange at the forefront of Quantitative Economics. The Conference will bring together academicians, economists, mathematicians, and statisticians from all over the world, and we hope that you will take this

opportunity to join us for academic exchange and visit the city of Nanjing.
We look forward to seeing you in Nanjing in May 2016.
