2016 Environmental and Resource Economics Conference (EREC 2016)

2016 Industrial and Technological Economics Conference (ITEC 2016)

2016 Business Economics Conference (BEC 2016)

AEC 2016 is devoted to the advancement of Agricultural Economics. Agricultural Economics (Agronomics) is an applied field of economics concerned with the application of economic theory in optimizing the production and distribution of food and fiber. Agricultural economics influences food policy, agricultural policy, and environmental policy. The scope of AEC 2016 covers both theoretical and practical areas of Agricultural Economics; Topical fields of interest include, but are not limited to the following: food and consumer economics, production economics, farm management, agricultural environment and natural resources.

AEC 2016 will be a valuable and important platform for inspiring international and interdisciplinary

exchange at the forefront of Agricultural Economics. The Conference will bring together academicians, economists, mathematicians, and policy-makers from all over the world, and we hope that you will take this opportunity to join us for academic exchange and visit the city of Nanjing. We look forward to seeing you in Nanjing in May 2016.
