1200 FinTech Landscape in Southeast Asia Region: Prospects & Challenges

1225 Panel Discussion: Regulatory Innovation in APAC for a Better FinTech Future

The various regulators within APAC differ greatly in their approach to the startup ecosystems within their respective countries. What difficulties will this cause for the healthy development of FinTech industry in this market? How to regionalize or even globalize FinTech regulation standards to ease cross-border businesses?

As emerging markets for FinTech development, APAC countries are all at the stage of exploring/start of exploring the balance point between regulation and innovation. Where do you think the balance point is? And what should be an effective regulatory system?

How can APAC countries cooperate to develop a more favorable environment for FinTech investment and startup development?

How should multiple market players, such as governments, regulatory authorities, startups, ect., cooperate together to create a healthy ecosystem?

...
